Phone: 877-243-8832

Fax: 877-329-9832

Email: my317vaccines@cdph.ca.gov

It is especially important for adults with chronic health conditions to be up-to-date on recommended vaccinations as they are at increased risk for complications from certain vaccine-preventable diseases. Especially in these challenging times, patients rely on healthcare professionals (HCPs) to advise them about important measures to protect their health—and an HCP recommendation is the strongest predictor of whether adults get vaccinated.

This webinar will feature two physicians discussing vaccine recommendations and strategies for increasing immunization rates among adults with chronic conditions such as heart disease, lung disease, and diabetes.

Speakers

- Tara Jatlaoui, MD, MPH, Medical Officer, National Center for Immunization and Respiratory Diseases (NCIRD), CDC
- Sarah Coles, MD, Family Physician and Assistant Professor, Department of Family, Community, and Preventive Medicine, University of Arizona College of Medicine

The webinar is free and open to all – but registration is required. [Please visit the PHF website to learn more about this event and register today.](#)
