†Completed Pertussis-containing booster (DTaP, DTP or Tdap) on or after 7th birthday. Pertussis booster rates should be considered minimum rates, since PBE and PME vaccine histories are not reported and some PBE/PME may be vaccinated and compliant.

**A Permanent Medical Exemption (PME) shall be granted upon the filing with the school a written statement from a licensed physician to the effect that the physical condition of the student or medical circumstances relating to the student are such that immunization is permanently not indicated.

§ A Personal Belief Exemption (PBE), whereby a parent requests exemption from the immunization requirements for school entry. A new state law that went into effect in January 2014 now requires parents seeking an exemption for their children to document that they have received vaccine counseling from a qualified health care practitioner within the last 6 months ('Health Care Practitioner PBE') or that they have a religious objection to receiving such counseling ('Religious PBE'). Students already enrolled in 7th grade prior to January 2014 ('pre-Jan PBE') were not subject to the new requirement. The number in this field represents the total PBE students as calculated by adding together the students in each of the PBE subcategories.

§§ A Health Care Practitioner Counseled Personal Belief Exemption (PBE) obtained by the parent who provides documentation that a health care practitioner has informed the parent regarding 1) the benefits and risks of immunization, 2) the health risks to the student and to the community of the communicable diseases for which immunization is required in CA

§§§ A Religious Exemption whereby a parent signs an affidavit requesting an exemption from the immunization because s/he is a member of a religion which prohibits him/her from seeking medical advice or treatment from authorized health care practitioners

^ Subject to exclusion from school
