

TO: Schools
FROM: CDPH
SUBJECT: Use Immunization History Reports
DATE: 7/1/19

Dear Child Care and School Partners:

Due to technical issues, “Yellow Cards” that are accessed and printed from the [California Immunization Registry \(CAIR\) system](#), are currently not accurate. In the meantime, we recommend that providers and schools utilize the “Immunization History Report,” available in CAIR or other immunization history reports accessed in Electronic Health Records (EHRs) systems, to be used as valid documentation for assessing a student’s immunization status for child care and school entry.

We will let you know when the “yellow cards” are working properly in CAIR.

Thanks for your patience.
