

# Vaccine Tips

November 2015

## Your Refrigerator and Freezer Temperature Logs must be complete AND accurate.

**Refrigerator Temperature Log**  
Four Steps to Protect Your Vaccines  
Record patient records by consistently recording temperatures below a step.

**TOO WARM?**  
1. Place ALL VACCINES in a cooler with ice packs.  
2. Report to the National Vaccine Injury Compensation Program (VIC) Call Center.  
3. Document on log (see page 2).

**TOO COLD?**  
1. Place ALL VACCINES in a cooler with ice packs.  
2. Report to the National Vaccine Injury Compensation Program (VIC) Call Center.  
3. Document on log (see page 2).

**TOO WARM?**  
1. Place ALL VACCINES in a cooler with ice packs.  
2. Report to the National Vaccine Injury Compensation Program (VIC) Call Center.  
3. Document on log (see page 2).

**TOO COLD?**  
1. Place ALL VACCINES in a cooler with ice packs.  
2. Report to the National Vaccine Injury Compensation Program (VIC) Call Center.  
3. Document on log (see page 2).

**TOO WARM?**  
1. Place ALL VACCINES in a cooler with ice packs.  
2. Report to the National Vaccine Injury Compensation Program (VIC) Call Center.  
3. Document on log (see page 2).

**TOO COLD?**  
1. Place ALL VACCINES in a cooler with ice packs.  
2. Report to the National Vaccine Injury Compensation Program (VIC) Call Center.  
3. Document on log (see page 2).

They are the “official records” of the temps in your storage units.

If temperatures are not recorded or are recorded incorrectly,

- your vaccines might be deemed unusable;
- your clinic might need to replace the vaccines; and
- you might need to revaccinate your patients.

**Never falsify information on your temp logs.  
It can lead to extremely serious consequences.**
